

# FAVOUR ADEGOKE

## Software Engineer

### Personal Profile

A software engineer that builds software that scale using the industry battle-tested engineering principles and approaches. Skilled in React.js, Next.js, TailwindCSS, PHP (Laravel), and database systems such as Firebase and Supabase. Experienced in building responsive, scalable web applications, integrating APIs, and SEO solutions.

Adept at version control using Git and GitHub, and currently expanding knowledge in Python and Machine Learning to create intelligent web systems. A quick learner with a strong passion for problem-solving, continuous improvement, and delivering clean, efficient code. Seeking opportunities to contribute to innovative projects and grow within a forward-thinking development team.
